## Company

New York

Supporting New York's  
biotech ecosystem.

# Why Choose BioLabs@NYULangone?

**As every startup entrepreneur knows, launching a company is not an easy task. Besides negotiating the license agreement, finding capital, and hiring a team, there's the challenge of finding lab space and purchasing equipment—which typically happens only after funding is secured and the milestone-clock starts ticking.**

As entrepreneurs and investors ourselves, we have been through this many times and know first-hand the pain-points that startups face. We designed BioLabs@NYULangone to be the premier co-working space for life science startups—a unique place in which to test, develop and grow game-changing ideas.

Our goal: to create an ideal community in which to launch a small company, surrounding members with the best people, infrastructure — and a wealth of resources to accelerate scientific achievement and business growth.

Our experience in building similar facilities has given us strong insights into the best practices for developing and growing early-stage companies. Our success has led to a nation-wide network of facilities in other geographies, including Cambridge, San Francisco, San Diego and North Carolina.

equipment.

# Membership and Services

**BioLabs@NYULangone offers flexible and fully equipped co-working lab and office space. We can accommodate up to 35 early-stage companies in our shared office and lab space. Our unique features include:**

- **On-demand** lab and office space
- **Flexible membership** terms
- **High-speed Internet**, 24/7 conference rooms, printers and copiers
- **Cafe** (coffee + healthy snacks) and community spaces including access to day lockers
- **Lab equipment** including: qPCR, freezers, fume hoods, plate readers, centrifuges, biosafety cabinets, flow cytometry, fluorescent microscopes, scales and more
- **Environmental Health and Safety** (EHS) support as well as chemical-waste storage and hazardous-waste handling and removal
- **Centralized and group purchasing** along with shipping-and-receiving support
- **On-site concierge**, scientific support and event staff

- **Access** to exclusive member events ranging from social hours to seminars and fireside chats
- **Capital Connections**
- **Benefits and perks** through service providers and industry partners

## Cost

There is an all-inclusive, monthly, per-person membership fee of \$400. The fully equipped co-working lab and office area features individual lab benches, office workstations, private labs, and private offices. The per-bench costs are \$3,600 per month. Companies can start with a single bench, and scale up as they grow.
