Why Choose BioLabs@NYULangone?

As every startup entrepreneur knows, launching a company is not an easy task. Besides negotiating the license agreement, finding capital, and hiring a team, there's the challenge of finding lab space and purchasing equipment—which typically happens only after funding is secured and the milestone-clock starts ticking.

As entrepreneurs and investors ourselves, we have been through this many times and know firsthand the pain-points that startups face. We designed BioLabs@NYULangone to be the premier coworking space for life science startups—a unique place in which to test, develop and grow game-changing ideas.

Our experience in building similar facilities has given us strong insights into the best practices for developing and growing early-stage companies. Our success has led to a nationwide network of facilities in other geographies, including Boston, Cambridge, North Carolina, Philadelphia, Princeton, San Diego, Los Angeles, and the Bay Area..

Our goal: to create an ideal community in which to launch a small company, surrounding members with the best people, infrastructure, and a wealth of resources to accelerate scientific achievement and business growth.

equipment.

Membership and Services

BioLabs@NYULangone offers flexible and fully equipped coworking lab and office space. We can accommodate up to 35 early-stage companies in our shared office and lab space. Our unique features include:

- **On-demand** private and shared lab and office space
- **Flexible membership** terms
- **24/7 conference rooms**, high-speed internet, printers and copiers
- **Cafe** (coffee + healthy snacks) and community spaces
- **Lab facilities** including: tissue culture and microbiology rooms, thermocyclers, qPCR, cold storage, autoclave, fume hoods, plate readers, centrifuges, microscopes, scales and more
- **Environmental Health and Safety** (EHS) support as well as chemical-waste storage and hazardous-waste handling and removal
- **Insilco Lab**
- **Centralized and group purchasing** along with shipping-and-receiving support
- **On-site concierge**, scientific support and event staff
- **Access** to exclusive member events ranging from social hours to seminars and fireside chats
- **Capital connections**
- **Mentoring and seminars**
- **Benefits and perks** through service providers and industry partners

Cost

There is a monthly, per person membership fee of \$400. The fully equipped coworking lab and office area features individual lab bench and open office workstations. The per-bench, private office, and per-workstation costs start at \$3,600, \$800 and \$200 per month, respectively. Companies can start with a single bench, and scale up as they grow.
